FIVE GOOD REASONS  
TO GIVE AWAY A  
PROMOTIONAL KNIFE.

martor

## LEAVE A LASTING IMPRESSION.

Iftode Universal  
sisteme de construcții

Gifts maintain friendship. With a successful promotional gift, you also maintain relationships. Relationships with your customers.

There are (at least) five reasons to recommend MARTOR knives. In this way, our promotional knives help you to advertise your company, your brand or your issue in a likeable and intelligent way.

### 1. SURPRISE.

Your business is not run-of-the-mill. Your customers aren't either. And your promotional gifts? Surprise your customers with a product that is not the norm. A product that is exceptional. Innovative.

### 2. MAKE GLAD.

You can always score well with a comfortable cutting tool. Everyone needs it – sometime, somewhere, somehow, at some point. Whether it is to open packages, work with paper or cut film.

#### Note:

This brochure is intentionally written from the perspective of the end customer. The person who will use a knife for advertising purposes, regardless of whether they order it via the well-assorted promotional products retailer or directly from MARTOR.

### 3. REASSURE.

Do cut – just don't cut yourself! It's best to give cutting tools **with built-in safety** as gifts. Your customers will notice that you care about their wellbeing.

### 4. LINGER.

In your customers' line of vision for a long time. A safety knife with your logo on it is so high quality that people will enjoy using it for **many years** to come.

### 5. ACHIEVE.

What you want to achieve: **satisfaction** in the person receiving the gift, and therefore sustainable maintenance of your relationship with that customer. And another thing: we're pretty sure your employees would like a present like this too...

Speaking of customer relationships: do we know one another yet? MARTOR is the leading international supplier of safety knives. The headquarters are in Solingen, the city of knives. Our "safety knives" get their name because they are equipped with **reliable safety technology**.

Well-known industrial and retail companies use our cutting tools to open **packaging** safely, quickly and **easily**. Or to advertise themselves.

If you want to use our professional tools as promotional knives too, a **prominent space on the handle** is reserved for your branding and your message.

# GIVE VALUE.

Innovation, comfort, safety, quality and (as a result) satisfaction. Who wouldn't want to be identified with that? With our cutting tools, that's exactly what your customer will experience:

**Innovation** because as market and technology leaders we only offer you the best. There is no distinction between advertising materials and professional tools.

**Comfort** because our ergonomically shaped knives are particularly comfortable to hold and suitable for a wide range of cutting applications.

**Safety** because our safety technologies effectively protect against cutting injuries.

**Quality** because many of our cutting tools are made of high-quality, long-lasting materials such as aluminium and abrasion-resistant plastic.

And **satisfaction** because ... well, ask your customers yourself!

Our safety technologies – presented for you:

**SECUMAX:** maximum safety thanks to the concealed blade  
In these knives, the blade is safely shielded, so doesn't come into contact with the person using it or the boxed goods.

**SECUPRO:** very high degree of safety thanks to the fully automatic blade retraction  
The blade retracts immediately after cutting even if you are still holding the slider or the lever.

**SECUNORM:** high degree of safety thanks to the automatic blade retraction  
As with the fully automatic blade withdrawal, only you need to release the slider or lever during cutting.

We also have other cutting tools such as cutters and special knives (scalpels, deburring tools, scrapers etc.) which are often equipped with manual blade retraction (= basic safety).

LET YOURSELF BE INSPIRED.

Iftode Universal  
sisteme de construcții

To give you a better idea of everything that is possible, here are a couple of examples. Now you just need to use your imagination to replace the lettering there with your own ...

Gpard®  
*business quality*

You can find our most popular promotional knives on the following pages, with all the necessary information about printable area, the important features of the knife and much more.

The pictograms for the individual products can be found in the flip-out page at the end of the brochure. Look for this symbol:

# SECUNORM SMARTCUT

## NO. 110000

### Yes, a cutting tool can be this SMART.

Make one cut with this disposable safety knife and you'll know immediately why it's called a SMART cut. Its light and compact shape is SMART. The fact that it is suitable for almost all types of cutting material is SMART. Automatic blade retraction in such a small plastic housing is SMART. Its immense popularity as an attractive commercial knife definitely proves its SMARTness.

# SECUMAX 150

## NO. 150001

### Full points in three regards.

SECUMAX 150 resolves several issues in one. With its concealed blade, you will never have to worry about injuring yourself or damaging your goods. Thanks to its versatility, you only need the one tool to cut, scrape and split. And with its 24 grams and ergonomic design, the disposable SECUMAX 150 won't weigh you down with fatigue after a day of cutting. In short: it is the cutting tool you have been waiting for.

# SECUMAX 350

## NO. 350001

### More fun while you work? Try it out.

The new SECUMAX 350 is a combination of versatility, comfort and safety. A maximum degree of safety. Featuring an innovative blade change, this knife is multi-talented. It can be used to cut all standard materials, from film to plastic-strapping, from paper to 2-ply cardboard. It splits adhesive tape easily too. And it is so comfortable to hold that you won't want to put it down.

### Possible application

Original size

### 2-in-1 blade head.

Double function, doubly useful: with two cutting edges and two tape splitters, this multifunctional blade head exceeds itself. Before you need to change the blade, flip it over once to use the second side. Furthermore, there's a spare blade head inside the handle.

# SECUNORM 175

## NO. 175001

### Surprisingly comfortable, incredibly capable.

The SECUNORM 175 is not only the latest addition to our popular box cutting knife range. It is a perfect advertising media, too. This little everyday helper convinces by its ergonomic form, intuitive handling and fresh design. Convenient and economically advantageous: the blade with the four cutting edges that you can turn or change very safely and easily.

# SECUNORM HANDY

## NO. 445

### Possible application

#### A classic, in pocket form.

The SECUNORM HANDY is compact, but don't be fooled! Being handy doesn't mean it's quaint. This is a cutting tool with "bite" and all the qualities required for the job. Compact yet versatile, lightweight but extremely handy, the SECUNORM HANDY is suitable for a variety of cutting applications. High frequency cutting is no problem for this safety knife with its metal handle and its blade with the four cutting edges.

# SECUMAX VISICUT NO. 470

## Your visiting card. With a blade.

As fragile as the SECUMAX VISICUT may appear, it is a really sharp cutting tool. And a popular advertiser too. If you look closely, it is like a business card with an in-built quality blade. So why not also your new business card? Your name, logo and your claim printed on it would always be there when your customers, friends and partners open their letters with it.

# SECUMAX POLYCUT

## NO. 85000

### Possible application

#### Pokes its nose into everything.

The SECUMAX POLYCUT is another of our small, plastic disposable knives. Not to be overlooked, this safety knife is a proud member of our product range. Its extra-long and pointed nose makes it very special indeed. Try using it to open a letter. Or to cut film bridging a narrow channel, for example when splicing. The SECUMAX POLYCUT makes tasks such as these a breeze. That this tool is comfortable to use goes without saying.

# SECUMAX POLYPICK

## NO. 469

### Cut film? Easy-peasy.

What the SECUMAX POLYPICK has is best shown by comparison. With a width of 3 mm, it is somewhat thicker than many of our other disposable film cutting knives. This advantage in stability will help you open film welded pallets for example. Another plus point is its pointed nose. It makes piercing into the cutting material easier.

# SECUMAX CARDY

## NO. 1469

### Possible application

#### Very slender. Extremely nimble.

The SECUMAX CARDY is another of our nimble paper and film cutting knives. Its compact shape allows for curved cutting: its short nose won't annoy. Its 2.5 mm wall thickness makes it particularly slender, and thereby agile. You can guide this disposable safety knife through very thin slots - particularly when cutting film. This feature is especially appreciated in the automobile industry.

# SECUMAX PLASTICUT

## NO. 3469

### Doesn't rest. Doesn't rust.

The SECUMAX PLASTICUT is different from the other products in our range but only in the detail. But you know: that's what often matters most. This flexible disposable knife is best used for cutting thin film and paper. Due to its width of just 2.5 mm, cutting protective film stretched over a thin gulley as between door and pillar on a new car is also possible. The blade is made of stainless steel, the cutting edge is TiN coated. And: the SECUMAX PLASTICUT contains location holes for additional fittings.

### Possible application

Iftode Universal

# SECUMAX OPTICUT

## NO. 437

Possible application

### Glides over the material. And right through the middle.

You are looking for a film and foam knife that effortlessly cuts harder and stronger film? One that's not afraid of stubborn foam? You have found the best possible solution with the SECUMAX OPTICUT. Its Teflon-coated, metal foot makes it both extremely abrasion resistant and easy to slide. Glide with jam less ease through whatever material you want to cut. Ideal for clean, precise cuts. By the way, the blade with the four cutting edges accompanies you for a long time.

# ARGENTAX CUTTEX 9 MM

## NO. 461

### Possible application

#### Classic cutter. With a 9 mm snap-off blade.

Sharp, small, handy - the ARGENTAX CUTTEX 9 MM with a narrow snap-off blade includes all the properties you would expect from a cutter. Ideal for easy cutting of cardboard boxes, cardboard and paper. The long, rounded off handle fits very well in your hand while doing so. You can vary the blade extension as you wish. But, be careful: it's better not to extend the blade completely when you are cutting.

# ARGENTAX CUTTEX 18 MM NO. 462

## Possible application

### Classic cutter. With an 18 mm snap-off blade.

If you are looking for a mature cutter with a variable blade extension, the ARGENTAX CUTTEX 18 MM with a wide snap-off blade is a very good choice. Just like its narrow "brother", the ARGENTAX CUTTEX 9 MM, it fits very well into your hand. But it is not just useful for cutting cardboard boxes, cardboard or paper, but also adhesive and other types of tape. But be careful: it's better not to use a completely extended blade!

# ARGENTAX CLAP

## NO. 579

### It fits. Even into the smallest pocket.

MARTOR and pocket cutters? Why not! With the ARGENTAX CLAP you can actually fold the quality blade in and out. When the blade is open you can carry out many different easy cutting jobs with it. When you fold it back into the handle, you have placed your disposable cutting tool in a safe condition.

# SECUNORM CLIP NO. 63000

## Possible application

### Original "lever product".

The SECUNORM CLIP is the "forefather" of our modern tong grip knives, if you like. This cutting tool has been offering you a squeeze lever action for a long time. As soon as you use it, the firmly moulded-in blade is ready for use. And that especially means: opening cardboard boxes. Because the cutting depth is very shallow, the content of your package remains out of reach - and is therefore very well protected.

# ARGENTAX CLEVERCUT

## NO. 474

### Many meaningful details - in the narrowest space.

The ARGENTAX CLEVERCUT is a box-cutter with manual blade retraction. You can extend the blade with a slider. It is available to you until you move it back into the handle yourself. It has a blade with four cutting edges and a small cutting depth so low, that it can hardly harm your goods.

# SECUNORM MIZAR

## NO. 125001

### Possible application

### More leverage, more performance.

The slimline SECUNORM MIZAR is your gateway into our world of quality squeeze lever knives. Instead of a slider, a lockable lever is responsible for releasing the double edge blade. Squeeze and cut. Thanks to a relatively large cutting depth, you can use this safety knife to cut all common cutting materials. Efficiently. Its slender, no-fuss form, simultaneously allows a wide variety of cutting styles.

# SECUPRO MERAK

## NO. 124001

### Safety, comfort? Everything under (lockable) control!

The SECUPRO MERAK is our practical, lockable knife with fully automatic blade retraction. With SECUPRO MARTEGO's "little brother" we have thought about one thing in particular: you. The lightweight and user friendly SECUPRO MERAK lets you work safely, with little risk of cutting exhaustion. And there's much more: thanks to a shallow cutting depth of the four cutting edges blade, your goods are also well protected. No matter what material you cut.

# SECUPRO MARTEGO

## NO. 122001

Possible application

### For highest demands.

A cutting tool in which function and design go hand in hand? Meet SECUPRO MARTEGO, our prize winning lockable knife with fully automatic blade retraction and a blade with four cutting edges. Get used to the word "very" in its presence: it's very safe, very robust, very ergonomic, very versatile, and made to very high standards. This safety knife is not only suitable for both right and left-handed users, but also for those with larger hands.

# SECUNORM PROFI LIGHT

## NO. 123001

### The particularly light heavyweight.

The SECUNORM PROFI LIGHT is a PROFI off-spring. With its plastic body, it is lighter than the others by several grams. But as far as cutting ability is concerned, it's a heavyweight. You can use this safety knife for almost all purposes. A relatively large blade length makes it suitable for cutting all common materials. For an indefinite number of cuts. And for special requirements, considering the handle can accommodate various types of double edge blades.

# SECUNORM PROFI25

## NO. 120001

### Possible application

#### Professional in every respect.

Our SECUNORM PROFI25 is aptly named. "Profi" because this safety knife really does behave professionally. Whatever the situation, whatever the cutting material. The "25" is reference to its impressive blade extension of 25 mm, with which even 3-ply cardboard can be conquered. And just like all other members of the PROFI family, SECUNORM PROFI25 features automatic blade retraction and a double edge blade.

# SECUNORM PROFI

## NO. 07152

### A classic. For right handed users.

Do you sometimes wonder why we've never bothered to update our SECUNORM PROFI? It is, after all four decades old! Well to be honest, it has never been necessary. Yesterday's pioneer is today's classic. A timeless shape, a robust form, a versatile ability: what more could you want? The "forefather" of all of our TÜV-tested safety knives, the SECUNORM PROFI features automatic blade retraction and has protected generations of users.

# SECUMAX EASYSAFE

## NO. 121001

### It's all easy. It's all safe.

The SECUMAX EASYSAFE is multi-talented. The prominent and pointed nose of the cutting tool easily pierces plastic sacks and foil-wrapped pallets. The concealed blade - a Solingen blade at that - easily cuts the sacks and film. An integrated plastic material-guide makes cutting thin film and paper sheets easier; even individual layers won't jam. And leather, safety belt and plastic strapping? No problem for the concealed blade with the four cutting edges.

### Possible application

### To lock the SECUMAX EASYSAFE.

Thanks to the locking key, only authorised employees have access to the blade and the possibility to change it. Optionally available (NO. 9890.74).

# SECUMAX COMBI

## NO. 109137

Possible application

### Combines performance with safety.

The SECUMAX COMBI is our best weapon for defeating all types of packaging film. Stretch film, shrink film or wrapping film? Thick or thin? Anything you need to cut. And the concealed blade with its four cutting edges means it can neither come close to you nor your goods. This is what we call "maximum safety". Aside from film, you can cut plastic strapping band, leather and even safety belts.

# SECUMAX SNITTY

## NO. 43037

### A well rounded knife. For paper and foil.

A paper and foil knife that guides the cutting material itself? Meet the SECUMAX SNITTY. Its integrated plastic material-guide guides thin material in the direction of the blade, smoothing out bumps and preventing jamming. The blade with the four cutting edges lays at a 45° degree angle to the cutting material. An optimal angle for easy cutting.

# SECUMAX MOBILEX

## NO. 45137

### Possible application

#### Adjustable cutting depth. You choose!

Paper, film, foam? Not a problem at all! But wait, there's more! The SECUMAX MOBILEX is the only safety knife with a concealed blade and an adjustable cutting depth. Make blade access larger or smaller by setting the in-built cutting depth adjuster. Set a depth as low as 2 mm, or as great as 10 mm. It all depends on your requirements and the size of the material you need to cut. By the way, the blade with its four cutting edges offers you a longer service life.

# SECUMAX SOS-CUTTER

## NO. 537

Possible application

### At your side in an emergency.

Safety belts are important for survival. They can however be a hindrance in the aftermath of an accident. They can trap injured people in dangerous situations. The SECUMAX SOS-CUTTER provides the perfect solution. You can use it to reliably cut through any safety belt, whether as a doctor, paramedic or accident witness. The safety knife is also suitable for cutting through clothing, which in some cases also has to be removed.

# SCRAPEX CLEANY

## NO. 544

Possible application

### What it does? Clean work.

Labels on the floor? Remains of materials tightly stuck? You can easily clean all smooth surfaces with the SCRAPEX CLEANY. The handy scraper is made of plastic. You can push its blade out of the handle with the practical slider, and after use, push it back in again to store it safely. Blade changing is also as easy as pie.

# SECUMAX RAPID

## NO. 594

### Possible application

#### Two blades, one goal: silicon.

The SECUMAX RAPID has found its purpose: silicon cartridges. It has two blades to deal with them. One small pointed one, that you can use to scratch and cut open the plug. And a rectangular one which caps the spout opening like a guillotine according to the thickness you require. Nothing can then come in the way of your actual work, such as renewing joints.

## SET THE TONE.

Our promotional knives are available in black and cyan, cyan or white as a standard. That's the rule. But for you, we're happy to make an exception, e.g. if you order a certain amount.

If you order 3,000 pcs., 5,000 pcs. or more, you can choose between a wide variety of colours and colour combinations, depending on the product. You can choose which tone best suits **your brand identity**.

With the combination of knife, colour and individual print, our package would be tailored to you. But you've also come to the right place if you have any wishes that go above and beyond the standard.

**Custom-made products available at customers' request!**

## DON'T WAIT AGES.

You already know exactly how you want your promotional knives to look like. Now you just want to hold them in your hands and give them to people at the right time.

As soon as you send us your printing data and your written order, we'll get started. That means we'll confirm the order, produce it as you want and **deliver** it quickly. Nothing will stand in the way of you maintaining your customer relationships.
